

December 1, 2016

Dear Pure Oakland Water Board of Directors,

My name is Afton Welninski, aspiring Environmental Biologist who will graduate from Eastern Michigan University in December 2016. This summer I was given the opportunity to join the Clinton River Watershed Council intern team, in which I was provided an experience to engage in active field research and educational outreach/community engagement programs. I would like to extend my deepest thanks to the POW organization for providing external resources to the CRWC organization in order for them to support additional interns such as myself. The opportunities afforded to me have equipped me with a valuable skill set and knowledge base as I venture forward in my development as an environmental biologist.

Sincerely,

Afton W.
